10. Scope of Operations

Priority Power Management (PPM) is an independent energy management services and consulting firm formed with the advent of electricity deregulation in Texas in 2001. Since that time, PPM has grown its employee base, client base, service offerings, value proposition, geographic reach, and the many other ways that we assist our clients. Today, we act as an extension of our client's staff to develop and implement strategies that mitigate risk and overcome challenges associated with managing energy data, supply, demand, and delivery infrastructure. By leveraging our deep experience and resources, combined with unsurpassed commitment, PPM delivers financial and operational improvements to our clients as their trusted energy advisor.
