American Power & Gas of IL, LLC	:

Application for Certificate of Service	:	16-0550
Authority under Section 19-110 of	:	
the Public Utilities Act.	:	

**ORDER**

By the Commission:

**I. PROCEDURAL HISTORY**

On November 18, 2016, American Power & Gas of IL, LLC (“Applicant”) filed a verified application with the Illinois Commerce Commission (“Commission”) requesting a certificate of service authority as an alternative gas supplier (“AGS”) in Illinois pursuant to Section 19-110 of the Public Utilities Act (“Act”), 220 ILCS 5/1-101 et seq., and 83 Ill. Adm. Code 551 (“Part 551”). That same day Applicant also filed a Verified Motion for Confidential Treatment (“Motion”) seeking confidential treatment of parts of its application. On November 20, 2016, notice of the application was published in the official state newspaper, pursuant to Section 19-110(c) of the Act and Section 551.30(a).

**II. STATUTORY AUTHORITY**

Statutory provisions applicable to the certification of alternative gas suppliers are set forth in Section 19-110 of the Act. Subsection 19-110(a) provides in part that Section 19-110 applies only to alternative gas suppliers serving or seeking to serve residential or small commercial customers. Provisions relating to the AGS application process are contained in Subsections (b), (c), (d) and (e). Among other things, the applicant must identify the areas to be served and types of service to be offered, and demonstrate sufficient technical, financial and managerial fitness to provide the proposed services. Generally speaking, the Commission is required to enter an order within 45 days after publication of a “properly filed” application.

Commission rules for certification of alternative gas suppliers are set forth in Part 551. Procedures and requirements pertaining to the application process are contained in Sections 551.20 through 551.110. Procedures for reporting continuing compliance are set out in Sections 551.120 through 551.170.

### **III. DESCRIPTION OF APPLICANT AND OF THE PROPOSED AGS SERVICES**

Applicant is a limited liability company originally formed under the laws of Florida. Applicant provided documentation from the Office of the Secretary of State, State of Illinois, demonstrating that Applicant is licensed to transact business in the State of Illinois. Application, Attachment A.

Applicant is a competitive electric and natural gas supplier and is currently licensed and serving customers in New Jersey, Ohio, New York, and Pennsylvania. Applicant is a wholly-owned subsidiary of AP&G Holdings, LLC. In the instant application, Applicant seeks authority to offer retail natural gas service to residential and small commercial customers in the service territories of Northern Illinois Gas Company, The Peoples Gas Light and Coke Company and North Shore Gas Company, as well as small commercial customers in the Ameren Illinois Company service territory. Applicant also indicates it does not seek to serve customers within a geographic area that is smaller than a gas utility's service area. Application at 3-4.

### **IV. AGS REQUIREMENTS AND OBLIGATIONS**

Pursuant to Section 551.20(a), Applicant certifies that it will comply with all applicable regulations, regional and industry rules, practices, policies, procedures, and tariffs for the use, operation, maintenance, safety, integrity, and reliability of the interstate natural gas system; and that it will submit good faith schedules of natural gas deliveries in accordance with applicable tariffs. Applicant also certifies that it will provide service to residential and commercial customers who are eligible to take service from an AGS; that it will comply with informational and reporting requirements established by Commission rule; and that it will comply with all other applicable laws and regulations and Commission rules and orders pursuant to Section 551.20.

Applicant indicates it has not been denied a natural gas license in any state in the United States. Applicant indicates it has not had a natural gas supplier license suspended or revoked by any state in the United States. Applicant indicates it currently does not have a gas supplier application pending in the United States. Applicant also certified its commitment of resources to the management of sales and marketing staff, through affirmative managerial policies, independent audits, technology, hands on field monitoring and training, and, in the case of any sales personnel or sales agents, within the State of Illinois, Applicant's managerial presence within the State. Finally, Applicant certifies it is not the subject of any lawsuits filed in court or formal complaints filed with a regulatory agency alleging fraud, deception, or unfair marketing practices, or other similar allegations. Application at 5-6

In accordance with Section 551.40, Applicant agrees to adopt and follow rules and procedures ensuring that authorizations received from customers, customer billing records, and requests for service transmitted to utilities are retained for a period of not less than two calendar years. In addition, Applicant agrees to confidential treatment of customer data.

Financial qualifications and requirements are addressed in Sections 551.50 and 551.80 of Part 551. Section 551.50 specifies certain "License or Permit Bond Requirements." Pursuant to Section 551.50, Applicant has provided, as Attachment E to its application, a copy of its "License or Permit Bond." The surety is International Fidelity Insurance Company and the amount of the bond is \$150,000, as required by Section 551.50(a). The Commission observes that the requirements of Sections 551.50(b) and (c) remain fully applicable to Applicant.

Applicant also demonstrates that it meets the "Technical Qualifications" and "Managerial Qualifications" which are set forth in Sections 551.90 and 551.100, respectively. Information provided includes an organizational chart, resumes and occupational background information on the "persons being used" to meet the requirements of those sections.

## **V. COMMISSION ANALYSIS AND CONCLUSION**

The Commission has reviewed the application and attachments provided by Applicant in support of its request for certification as an AGS. Subject to the conditions contained herein, the Commission finds that the application is in order and satisfies the requirements of the Act and Part 551. The Commission concludes, therefore, that the application for certification as an AGS should be granted as set forth in the first ordering paragraph below.

The Commission notes that Applicant further seeks confidential treatment of certain information contained in Attachments F, G and H which were filed with the Application. Applicant indicates that these documents contain highly proprietary and confidential commercial and financial information, the disclosure of which to competitors would likely be detrimental to Applicant given the highly competitive nature of the gas industry. The Commission has reviewed the request for confidential treatment and finds that it is appropriate to grant a two-year period of confidential treatment for Attachments F, G and H. The Commission concurs with Applicant that disclosure of the redacted information and use by a competitor is apt to cause Applicant competitive harm. Applicant's confidential information in the Commission's possession should, therefore, be accessible only by the Commission and Commission Staff, unless such information is or becomes publicly available from another source.

## VI. FINDINGS AND ORDERING PARAGRAPHS

The Commission, having reviewed the entire record, is of the opinion and finds that:

- (1) American Power & Gas of IL, LLC, which is a limited liability company organized under the laws of Florida, is licensed to do business in the State of Illinois and seeks to obtain a certificate of service authority to operate as an AGS under Section 19-110 of the Act;
- (2) the Commission has jurisdiction over Applicant and the subject matter hereof;
- (3) the facts recited and conclusions reached in the prefatory portion of this Order are supported by the record and are hereby adopted as findings of fact;

Dear New Jersey Third Party Supplier:

On May 10, 2019, Governor Phil Murphy signed bills S. 604 and S. 605 (2018) [P.L. 2019, c. 100-101] into law providing that third party electric power and natural gas supplier licenses issued by the Board of Public Utilities (the "Board") may be renewed without expiring if certain conditions are met. P.L. 2019, c. 100-101 becomes operative 60 days following the date of enactment. As such, any third party suppliers with a license expiring prior to July 9, 2019 are still required to submit the existing renewal application form. Third party suppliers that have not submitted an on-time renewal application are still required to submit a new initial application in accordance with N.J.A.C. 14:4-5.6. This rule does not change as a result of the newly enacted law regarding the renewal of licenses.

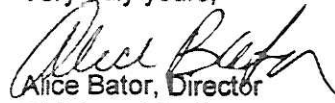

For all third party suppliers with a license expiring July 9, 2019 or later, a license shall not expire so long as the licensee pays to the Board a license renewal fee accompanied by an annual information update on a form prescribed by the Board. The renewal fee and annual information update form must be submitted within 30 days prior to the anniversary date of the last approved licensing application. The annual information update forms will be posted to the Board's website at the following link.

<https://www.state.nj.us/bpu/about/divisions/energy/thirdparty.html>

Any third party supplier renewal application currently pending with the Board will continue to be processed by Board Staff for approval or denial in accordance with N.J.A.C. 14:4-5.7. The anniversary date for companies with a pending application will be the date that the renewal application receives Board approval. Thereafter, the annual information update form shall be used for the licensee's annual submission.

If you have any questions, please contact the Audits Division at 609-292-0628. Thank you for assisting the Board in maintaining compliance with this newly enacted law.

Very truly yours,

  
Alice A. Bator, Director  
Division of Audits
