Applicant is a limited liability company organized under the laws of Connecticut and not affiliated with an Illinois utility. In the current proceeding, Applicant seeks authority to offer the sale of electricity and power to all eligible residential and nonresidential retail customers in the service territory of Commonwealth Edison Company ("ComEd") pursuant to Subpart D of Part 451.

Applicant says its services will include supplying retail customers with their expected twelve month electric generation load requirements by purchasing energy and related services through wholesale generation suppliers and traders participating in the various wholesale markets. Applicant currently supplies competitive electric service to residential, commercial, and industrial customers in New Jersey, Maryland and Pennsylvania. Applicant was previously licensed in Connecticut but voluntarily relinquished its Connecticut license when it sold its entire Connecticut customer base and withdrew from the Connecticut market.

III. GENERAL REQUIREMENTS UNDER THE ACT

Applicant does not intend to install, operate, or maintain generation, transmission, or distribution facilities within Illinois. Therefore, no demonstration of compliance with the requirements of Section 451.20(d)(2) has been made. Applicant's employees are not permitted to perform such functions, nor are others permitted to perform such functions pursuant to contractual arrangements with Applicant.

Applicant has certified that it will comply with all applicable regulations; that it will provide service only to retail customers eligible to take such services; that it will comply with informational and reporting requirements established by Commission rule; that it will comply with informational and reporting requirements pursuant to Section 16-112 of the Act; and that it will comply with all other applicable laws, regulations, terms, and conditions required to the extent they have application to the services being offered by an ARES. Additionally, Applicant has agreed to submit good faith schedules of transmission and energy in accordance with applicable tariffs. Applicant has agreed to adopt and follow rules relating to customer authorizations, billing records, and retail electric services and agrees to retain requests for delivery services transmitted to utilities for a period of not less than two calendar years after the calendar year in which they are created. Applicant has agreed to adopt and follow rules and procedures to preserve the confidentiality of its customers' data.

Applicant agrees to procure renewable energy resources as required by subsection (d) of Section 16-115 and Section 16-115D of the Act. Applicant also certifies that it will source electricity from clean coal facilities as required by Section 16-115(d)(5) of the Act.

Pursuant to the requirements of Subpart D of Part 451, Applicant certifies that any marketing materials that make statements concerning prices, terms, and conditions of service shall contain information that adequately discloses the prices, terms, and conditions of the products or services that it is offering or selling to the customer. Applicant also certifies that before any customer is switched from another supplier, it shall give the customer written information that adequately discloses, in plain language, the prices, terms, and conditions of the products and services being offered and sold to the customer. Applicant further certifies that it will provide documentation to the Commission and to customers that substantiates any claims made regarding the technologies and fuel types used to generate the electricity offered or sold to customers. Applicant commits to provide to its customers itemized billing statements that describe the products and services provided to the customer and their prices; and an additional statement, at least annually, that adequately discloses the average monthly prices, and the terms and conditions, of the products and services sold to the customer.

Applicant certifies that it will include materials comprising the consumer education program pursuant to Section 16-117 of the Act with all initial mailings to potential residential and small commercial retail customers and before executing any agreements or contracts with such customers. Applicant certifies that it will provide

consumer education program materials pursuant to Section 16-117 of the Act at no charge to residential and small commercial retail customers upon request. Applicant certifies that it will provide to residential and small commercial retail customers on a semi-annual basis information on how to obtain a list of ARES that have been found in the last three years by the Commission to have failed to provide service in accordance with the terms of their contracts pursuant to Section 16-117(g)(4)(C) of the Act.

Pursuant to the requirements of Section 451.50 of Part 451, Applicant provided a License or Permit Bond in the amount of \$300,000 issued by a qualifying surety authorized to transact business in Illinois. Attachment 5 to the application is a copy of the required License or Permit Bond.

IV. FINANCIAL, TECHNICAL, AND MANAGERIAL REQUIREMENTS OF SECTION 16-115

Applicant asserts that it meets the financial qualifications set forth in Section 16-115(d)(1). Specifically, Applicant states that it meets the requirements of Section 451.320(a)(3). With regard to ComEd's service area, Applicant indicates it is currently a member of PJM Interconnection ("PJM"). Applicant certifies that it will purchase 100% of the physical electric energy needed for delivery to the ComEd service territory from PJM.

Applicant represents that it meets the technical and managerial qualifications set forth in Section 16-115(d)(1) of the Act and Sections 451.330 and 451.340 of Part 451. In the application and Attachments 6 and 7, Applicant identifies the personnel who satisfy the criteria and provides biographical information for these individuals. Applicant states that it will rely on agents or contractors to meet the technical and managerial requirements of Sections 451.330 and 451.340. Each agent and contractor on whom the Applicant relies to meet these requirements is disclosed on Attachment 9. Applicant certifies that each such agent or contractor will comply with all the sections of Part 451 that are applicable to the functions to be performed by the respective agent or contractor. Applicant provided a telephone number and facsimile number where its staff can be directly reached at all times. Although Applicant does not appear to have three or more individuals in management positions with four or more years experience with enterprise financial and administration responsibilities including profit and loss responsibilities, four years experience buying and selling power and energy in wholesale markets, it appears to the Commission that the Applicant satisfies subsection (c) of Section 451.340, in that the Applicant has demonstrated that its managerial resources and abilities match the services that it intends to provide to its customers.

Applicant states that it has not been denied an electric supplier license in any state. Nor, Applicant continues, has it had an electric supplier license suspended or revoked by any state. Applicant indicates that it is not the subject of any lawsuit filed in a court of law.

In its response to the Administrative Law Judge, the Applicant clarified that of the informal complaints listed in its application, only 11 of those complaints became formal,

docketed complaints with the Connecticut public utilities commission ("CPUC"). Applicant also detailed the findings of the CPUC investigation into its practices, which ultimately resulted in a settlement agreement which found no liability on the Applicant's part, and provided for the Applicant to make a \$4,500 charitable contribution in lieu of any penalty. In its response, the Applicant also detailed the changes in its processes it had made as a result of the CPUC investigation, including hiring a new head of quality assurance for marketing; discontinuing what it had determined were flawed third-party verification and voice recording systems; and developing an electronic queuing system for verifying authorizations.

V. COMMISSION CONCLUSION AND CERTIFICATE OF SERVICE AUTHORITY

The Commission has reviewed the application and supplemental information provided by Applicant regarding the technical, financial, and managerial requirements and all other requirements of the Act and Part 451 and finds that the Applicant sufficiently demonstrates compliance with the requirements. The Commission concludes, therefore, that Applicant's request for a Certificate of Service Authority to operate as an ARES in Illinois should be granted. Applicant's Certificate of Service Authority should include the following authority:

CERTIFICATE OF SERVICE AUTHORITY

IT IS CERTIFIED that ResCom Energy, LLC is granted service authority to operate as an Alternative Retail Electric Supplier as follows:

SERVICES TO BE PROVIDED: The sale of electricity and power.

CUSTOMERS TO BE SERVED: All eligible residential and nonresidential customers.

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF DELAWARE**

IN THE MATTER OF THE APPLICATION)
OF RESCOM ENERGY, LLC FOR A)
CERTIFICATE TO PROVIDE ELECTRIC) PSC DOCKET NO. 13-226
SUPPLY SERVICES WITHIN THE STATE)
OF DELAWARE (FILED JUNE 6, 2013))

ORDER NO. 8439

ELECTRIC SUPPLIER CERTIFICATE

This 13th day of August, 2013, the Delaware Public Service Commission (the "Commission") determines and orders the following:

WHEREAS, on June 6, 2013, ResCom Energy, LLC ("ResCom" or "Company") filed an application (the "Application") seeking certification as a retail electric supplier. See 26 Del. C. §§1001(14) and 1012. The Application does not request to certify ResCom as a broker pursuant to 26 Del. C. §1001(3). Under the Electric Utilities Restructuring Act of 1999 (the "Act"),¹ "Electric Suppliers"² are not "public utilities" and the resulting sales of Electric Supply Service to Retail Electric Customers are not subject to traditional forms of rate regulation. See 26 Del. C. §§ 102(2) and 202(f); and

WHEREAS, in the Application, ResCom requests authority under Del. C. §1012(a) and 26 Del. Admin. C. §3001 to do business and operate as an "Electric Supplier" within the State of Delaware and to provide Electric Supply Service to Residential and Commercial Customers in the State of Delaware; and

¹ See 26 Del. C. Ch. 10

² Unless otherwise noted, capitalized terms shall have the meanings ascribed to them in 26 Del. C. §1001 and 26 Del. Admin. C. §3001.

WHEREAS, Staff reports that the Application fulfills all the requirements for the Company to obtain an Electric Supplier Certificate to act as an Electric Supplier as set forth in the Commission's Rules for Certification and Regulation of Electric Suppliers, 26 Del. Admin. C. §3001 (the "Supplier Rules"). In particular, Staff reports that the Company has provided sufficient information evidencing its financial, operational, managerial, and technical capabilities to operate as an Electric Supplier. As required by Section 2.2 of the Supplier Rules, the Company also provided the appropriate affidavits of publication of notice of its Application in the Delaware State News and The News Journal. Staff confirms that there were no comments, interventions, or protests filed in the instant docket within the required 20-day notice period. Because Staff reports that the Company has fulfilled all of the requirements for an Electric Supplier Certificate, Staff recommends that the Commission issue such an Electric Supplier Certificate to ResCom to allow it to offer Electric Supply Service in this State consistent with the scheme adopted by the Act and the Supplier Rules;

**NOW, THEREFORE, IT IS HEREBY ORDERED BY THE AFFIRMATIVE
VOTE OF NOT FEWER THAN THREE COMMISSIONERS:**

1. That under 26 Del. C. §1012(a) and 26 Del. Admin. C. §3001, ResCom Energy, LLC ("ResCom") is hereby granted a certificate to do business and operate as an "Electric Supplier" within the State of Delaware. Under this certificate, ResCom is authorized to provide Electric Supply Service within this State in accordance with 26 Del. C. Ch. 10.

2. That ResCom shall at all times provide its Electric Supply Service in accordance with the requirements imposed by 26 Del. C. Ch. 10 and 26 Del. Admin. C. §3001 as presently adopted or as may be hereafter amended or supplemented. ResCom is hereby notified that a violation of any applicable statute, rule or other controlling authority may be enforced by the sanctions permitted by 26 Del. C. §§1012(a) and 1019 and 26 Del. Admin. C. §3001-10.2.

3. That ResCom shall file, pursuant to the provisions of 26 Del. C. §1012(c)(2) and 26 Del. Admin. C. §§3001-3.9 and 3.10, such reports and pay such fees and assessments as may be required or may be imposed by 26 Del. C. §§114 and 115.

4. That ResCom consents to the jurisdiction of the courts of the State of Delaware for all acts or omissions related to its offering of Electric Supply Services in this State.

5. That ResCom is hereby placed on notice that the costs of the proceedings will be charged to it under the provisions of 26 Del. C. §114(b)(1).

6. That the Commission reserves the jurisdiction and authority to enter such further Orders in this matter as may be deemed necessary or proper.
