

**PUBLIC SERVICE COMMISSION OF THE DISTRICT OF COLUMBIA  
1325 G STREET, N.W., SUITE 800  
WASHINGTON, D.C. 20005**

**November 13, 2024**

**GD-2020-02-M, IN THE MATTER OF THE PILOT PROJECTS GOVERNANCE BOARD**

**LETTER OF COMMISSIONER BEVERLY TO THE PILOT PROJECT  
GOVERNANCE BOARD<sup>1</sup>**

This communication is in reference to the Virtual Power Plant (“VPP”) RFP that was prepared and approved by the Governance Board. According to the most recent Governance Board meeting minutes: “[t]he Board-approved VPP RFP has been sitting with staff since July, 2023. Staff is now looking at January 2025 for the VPP RFP’s release. There are new staff in OTRA who want to review the RFP before it is released. The Commissioners have not seen the VPP RFP yet.”<sup>2</sup> Although I have no problem with Staff reviewing the RFP, I’m unclear why it has sat for over a year with no action or why I can’t see the original RFP that the Governance Board gave to Staff. To that end, I am requesting that the Governance Board file a copy of the VPP RFP in the docket, and send a Microsoft Word copy to me directly at CommissionerBeverly@psc.dc.gov.

---

<sup>1</sup> Pursuant to D.C. Code §34-802, I have independent authority to pursue any line of inquiry that the Commission itself could pursue.
