15. BONDING REQUIREMENTS

Integrity Bond

An Applicant who cannot provide credible evidence that it meets the financial integrity standards listed in Section 4605 of Chapter 46 of Title 15 DCMR must submit a bond on the form attached to this Application ("Integrity Bond"). The Applicant, if licensed by the Commission as an electricity supplier, may be required to update/revise this initial Integrity Bond, by revising the initial Integrity Bond or posting an additional Integrity Bond, as set forth in Section 4605. [See Attachment M](#)

However, an Applicant who can provide credible evidence that it meets the financial integrity standards listed in Section 4605 will not be required to submit an Integrity Bond. (The Applicant may still be required to submit a separate Customer Payments Bond, as discussed below.).

Customer Payments Bond

A separate bond on the appropriate form attached to this Application is mandatory if an Applicant requires prepayments and/or deposits from residential or small commercial customers (“Customer Payments Bond”). Please check one of the boxes below to state whether you, the Applicant, intend to charge, collect, or hold prepayments and/or deposits, as such terms are defined in the Bonding Requirements Addendum attached to this Application:

- Applicant will not accept prepayments or deposits from residential and small commercial customers.
- Applicant intends to accept prepayments or deposits and/or deposits from residential and small commercial customers. Applicant must comply with Bonding Requirements Addendum governing the Customer Payment Bond.

Further details regarding the District of Columbia’s bonding requirements are included in Sections 4604 and 4605 of Chapter 46 of Title 15 DCMR.

- 16. NOTICE OF REQUIRED COMPLIANCE:** The Applicant is hereby notified that it is required to comply with the following:
- a. The Applicant may be required to submit bond(s), as applicable as described in Section 15 herein.
 - b. The Applicant must update this application with the Commission immediately if any of the information provided in this Application changes or an error or inaccuracy is noted during the pendency of the Application. After an Application has been approved, a Licensee must inform the Commission of changes to all parts of the application and the averment regarding any civil, criminal, or regulatory penalties, etc. imposed on applicant, *et al.* within thirty days of the change or an error or inaccuracy is noted. A Licensee must inform the Commission of changes to the averment regarding bankruptcy proceedings instituted voluntarily or involuntarily within one business day of the institution of such proceedings.
 - c. Supplement this application in the event the Commission modifies the licensing requirements, or request further information.

- d. Agree that it will not present itself as a licensed retail supplier of electricity in the District of Columbia, sell or market services, accept deposits, prepayments, or contract with any end-use Customers without a license from the Commission.
 - e. Pay all fees imposed by the Commission and any applicable taxes.
 - f. Ensure that a copy of each service agreement entered into with Potomac Electric Power Company is provided to the Commission.
 - g. Attend an Electricity Suppliers Education Workshop sponsored by the Commission.
 - h. If certified, the Applicant shall institute a Privacy Protection Policy to protect against the unauthorized disclosure or use of information about a Customer or a Customer's use of service. A copy of that Policy shall be made available once a year, including any updates or changes, through electronic means or a hardcopy to the Customer and posted in a prominent place on each company's website.
 - i. Abide by 15 DCMR § 308 and refrain from disclosing information about a Customer or the Customer's use of electricity or electric generation services without the Customer's written consent.
 - j. Agrees to comply with 15 DCMR § 4602.12 Electric Company and Licensee Responsibilities in the event of a default after certification, and with the District of Columbia Electricity Supplier Coordination Tariff.
17. **AFFIDAVITS REQUIRED.** The Applicant must supply Affidavits of Tax Compliance and General Compliance to the Commission with the completed Application. The affidavits are included with this Application packet and must be executed by the Applicant or representative with authority to bind the Applicant in compliance with District of Columbia laws.
18. **FURTHER DEVELOPMENTS:** Applicant is under a continuing obligation to amend its application if substantial changes occur in the information upon which the Commission relied in approving the original filing.
19. **FEE:** The Applicant has enclosed the required fee of \$400.00.

ATTACHMENT F-1

Form of Umbrella Service Agreement for Network Integration Transmission Service Under State Required Retail Access Programs

- 1.0 This Service Agreement dated as of 11-7-2014, including the Specifications For Network Integration Transmission Service Under State Required Retail Access Programs attached hereto and incorporated herein, is entered into, by and between PJM Interconnection, L.L.C. ("Transmission Provider") as administrator of the Tariff, PJM Settlement Inc. ("Counterparty") as the counterparty, and Aggressive Energy LLC, a transmission customer participating in a state required retail access program and/or a program providing for the contractual provision of default service or provider of last resort service ("Network Customer").
- 2.0 The Network Customer has been determined by the Transmission Provider to have a valid request for Network Integration Transmission Service under the Tariff and to have satisfied the conditions for service imposed by the Tariff to the extent necessary to obtain service with respect to its participation in a state required retail access program.
- 3.0 Service under this Service Agreement shall commence on 11-7-2014, and shall terminate on such date as mutually agreed upon by the parties, unless state law or regulations specify a limited period for service or unless earlier terminated for default under Section 7.3 of the Tariff.
- 4.0 The Transmission Provider agrees to provide, and the Network Customer agrees to take, Network Integration Transmission Service in accordance with the Tariff, including the Operating Agreement of the PJM Interconnection, L.L.C. ("Operating Agreement") (which is the Network Operating Agreement under the Tariff and is incorporated herein by reference) and this Service Agreement, as they may be amended from time to time.
- 5.0 Any notice or request made to or by either Party regarding this Service Agreement shall be made to the representative of the other Party as indicated below.

SPECIFICATIONS FOR
NETWORK INTEGRATION TRANSMISSION SERVICE
PURSUANT TO STATE REQUIRED RETAIL ACCESS PROGRAMS

- 1.0 Term of Service: The term of service under this Service Agreement shall be from 11-7-2014 until terminated by mutual agreement of the parties, unless state law or regulations specify a limited period for service or unless earlier terminated for default under Section 7.3 of the Tariff.
- 2.0 Network Operating Agreement: In accordance with Section 29.1 of the Tariff, the Network Customer must be a member of PJM Interconnection, L.L.C. and a signatory to the Operating Agreement.
- 3.0 Network Load and Network Resources: The Network Customer shall be responsible for the Transmission Provider receiving the information pertaining to Network Load, Network Resources, and Behind The Meter Generation described in this section. Such information shall be provided in accordance with procedures established by the Transmission Provider. With respect to service requests under this umbrella Service Agreement, the Transmission Provider will deem the provision of the information specified in this section as complying with the application requirements set forth in Section 29.2 of the Tariff.
- 3.1 Network Load: For Network Load within the PJM Region, the Network Customer shall arrange for each electric distribution company ("EDC") delivering to the Network Customer's load to provide directly to the Transmission Provider, on a daily basis, the Network Customer's peak load (net of operating Behind The Meter Generation, but not to be less than zero, unless such generation is separately metered and reported to PJM), by bus, coincident with the annual peak load of the Zone as determined under Section 34.1 of the Tariff. The peak load shall be expressed in terms of tenths of a megawatt and shall include all losses within the PJM Region, including other transmission losses, and distribution losses. Unless a more specific bus distribution is available, the EDC may provide a bus distribution for the Network Customer's peak load proportional to the bus distribution for all of the load in the Zone. The information must be submitted directly to the Transmission Provider by the EDC, unless the Transmission Provider approves in advance another arrangement. For Non-Zone Network Load, the Network Customer shall provide to the Transmission Provider, on a daily basis, the Network Customer's peak load, by interconnection at the border of the PJM Region, coincident with the annual peak load of such area as determined under Section 34.1 of the Tariff. The peak load for such Non-Zone Network Load shall be expressed in terms of tenths of a megawatt and shall not include losses within the PJM Region. Unless a more specific bus distribution is identified and node definition requested, a service request shall be granted upon submission of the information set forth in this Section 3.1 without any further confirmation procedures. If a Network Customer under this Service Agreement, prior to the commencement of service or at any time after the commencement of

service, identifies a more specific bus distribution and requests a node definition for all or part of its Network Load that is served under state required retail access programs, the Network Customer shall notify both the Transmission Provider and the electric distribution company pursuant to the notification procedure and schedule set forth in the PJM manuals. The Transmission Provider, exercising its independent judgment and expertise, shall have the authority to resolve any difference of opinion that may arise between the Network Customer and the electric distribution company as to the applicable bus distribution or node definition. If confirmed, the more specific bus distribution will not be used for billing and settlement purposes, however, until the notification procedure set forth in the PJM manuals is completed, and in no event until June 1, to correspond with the commencement of the annual planning period.

- 3.2 Network Resources: The Network Customer, as necessary, shall designate from time to time its Network Resources. In the event the Network Resource to be designated is Behind The Meter Generation, the designation must be made before the commencement of a Planning Period as that term is defined in the Operating Agreement and will remain in effect for the entire Planning Period. Such Network Resources must be acceptable to the Transmission Provider as Network Resources in accordance with the Tariff and the Operating Agreement. Designations of resources that have not previously been accepted as Network Resources of any Network Customer or Transmission Customer shall include the information set forth in Section 29.2(v) of the Tariff. Changes in the designation of Network Resources will be treated as an application for modification of service. The Network Customer shall confirm the acceptance of a Network Resource within 15 days of the completion of a System Impact Study or 30 days after completion of a Facilities Study, as is applicable. The Transmission Provider will maintain a current list of Network Resources, which shall be updated from time to time.
- 3.3 Hourly Load: The Network Customer and/or the EDCs delivering to the Network Customer's load shall provide to the Transmission Provider, on a daily basis, hourly loads and an associated bus distribution for the Network Load. For Network Load within the PJM Region, hourly loads required under this Section shall include all losses within such area, including transmission losses, and distribution losses. The Network Customer shall notify the Transmission Provider whether the Network Customer or the EDC will submit the hourly loads. The submitted load values will include losses and shall be reduced using the applicable loss factor determined by the Transmission Provider whenever a billing determination is calculated under the Tariff without losses.
- 3.4 Energy Schedules: The Network Customer shall schedule energy for its hourly loads in accordance with the Appendix to Attachment K of the Tariff.
- 3.5 Interruptible Loads: The Network Customer shall inform or shall arrange for each EDC delivering to Network Customer's load to inform Transmission Provider about the amount and location of any interruptible loads included in the Network

Load. This information shall include the summer and winter peak load for each interruptible load (had such load not been interruptible), that portion of each interruptible load subject to interruption, the conditions under which an interruption can be implemented, and any limitations on the duration and frequency of interruptions.

- 3.6 Procedures for Load Determination: The procedures by which an EDC will determine the peak and hourly loads reported to the Transmission Provider under Sections 3.1 and 3.3 may be set forth in a separate schedule to the Tariff for each EDC.
- 3.7 Behind The Meter Generation: For Behind The Meter Generation of a Network Customer that requires metering pursuant to section 14.5 of the Operating Agreement, the Network Customer shall arrange for the Transmission Owner or EDC to provide directly to Transmission Provider information pertaining to such Behind The Meter Generation and the total load at its location as necessary for PJM's planning purposes.
- 4.0 Energy Imbalance Service: The Network Customer will receive Energy Imbalance Service from the Transmission Provider in accordance with Schedule 4 of the Tariff. Energy Imbalance Service is considered to be PJM Interchange and will be charged at the hourly locational marginal price determined pursuant to Section 2 of the Appendix to Attachment K of the Tariff.
- 5.0 Reconciliation Billing: For Network Load within the PJM Region, to the extent required, the Transmission Provider will reconcile the Network Customer's hourly energy responsibilities as initially reported to Transmission Provider and its hourly energy consumption based on, or estimated from, metered usage, and provide corresponding charges and credits to Network Customer. Such reconciliation, if required, shall be made at the same rates as Energy Imbalance Service.
- 6.0 Designation of party subject to reciprocal service obligation: The Network Customer shall comply with Section 6 of the Tariff.
- 7.0 Name(s) of any Intervening Systems providing transmission service: To the extent any Network Resources are located outside the PJM Region, the list of Network Resources maintained by the Transmission Provider referenced in Section 3.2 of these specifications, shall identify any intervening systems needed to deliver those Network Resources to the Network Customer's retail load.
- 8.0 Charges: Service under this Service Agreement may be subject to some combination of the charges detailed below. (The appropriate charges for individual transactions will be determined in accordance with the terms and conditions of the Tariff.)
 - 8.1 Embedded Cost Transmission Charge: The embedded cost transmission charge shall be determined in accordance with the formula set forth in Section 34 of the Tariff.

- 8.2 System Impact and Facilities Study Charges: To the extent Network Resources are located outside, or a new resource is added to, the PJM Region, a System Impact Study and/or Facilities Study Agreement and related charges may be required pursuant to Section 32 of the Tariff.
- 8.3 Direct Assignment Facilities Charge: To the extent that facilities or portions of facilities must be constructed by a Transmission Owner for the sole use or benefit of the Network Customer to accommodate the service requested by the Network Customer, the Network Customer shall be responsible for the cost of such Direct Assignment Facilities, and the charges for such facilities shall be specified at the time that the Transmission Provider determines the facilities that are needed to provide the requested service.
- 8.4 Ancillary Services Charge: In addition to Energy Imbalance Service, Transmission Provider shall bill the Network Customer for ancillary services in accordance with Schedules 1, 1-A, 2, 3, 5, 6, and 9 of the Tariff. To the extent required, the ancillary services charges shall also be reconciled based on any differences between the Network Customer's hourly energy responsibilities as initially reported to Transmission Provider and its hourly energy consumption based on, or estimated from, metered usage.
- 8.5 Other Supporting Facilities Charge: None.
- 8.6 **[Reserved]**
- 8.7 Other Charges: Transmission Provider shall charge Network Customer any and all other charges set forth in the Tariff applicable to providing Network Integration Service.
- 9.0 Designated Agent: To the extent that a Designated Agent for one or more Network Customers provides to the Transmission Provider any of the information required by these Specifications, it shall provide the information separately for each Network Customer.

CERTIFICATION

I, Dan Messina, certify that I am a duly authorized officer of Aggressive Energy LLC (Network Customer) and that Aggressive Energy LLC (Network Customer) will not request service under this Service Agreement to assist an Eligible Customer to avoid the reciprocity provision of this Open-Access Transmission Tariff.

Mr. Messina,

Please find attached to this email for review and execution a Network Integration Transmission Service Agreement ("NITSA") for retail access (i.e., Attachment F-1 of the PJM OATT). Please notify us immediately of any changes or corrections.

After you review the Agreement, **please print, execute, and notarize two (2) originals**. Please **do not** fill in the date in paragraph 1.0 and 3.0 on page 1. Also, **do not** fill in the date in paragraph 1.0 of the specifications sheet on page 3. PJM will insert in those fields the date on which PJM's officers execute the Agreement.

Once you have completed the above, **please return both originals to me** at the address in my signature below. You may wish to return the executed Agreements to me via overnight mail for tracking purposes. After PJM's officers execute each original, PJM will send you a fully executed original for your records.

Please let me know if you have any questions or concerns.

Thank you.

Hi Michael,
It was a pleasure speaking with you this morning.

As per our conversation, I will need to get the name, title and contact information for the Officer of your company that will be signing the Network Integration Transmission Service Agreement (F 1).

PJM Information

We just recently created a learning center to help customers learn about PJM. You may find the information on this page helpful: <http://learn.pjm.com/>

LSE Information

Here is the link to our Training Materials page of our website: <http://www.pjm.com/training/training-material.aspx>
You will want to look at the Market Settlements 301 presentations, Reliability Pricing Model >LSE Obligations and Settlements, Transaction 201 presentations and PJM ARR & FTR Training.

In addition to this, we offer a few online courses related to LSE's that you can view at your own leisure. If you go to the following web page and check the box on the left hand side for Load Serving Entity the applicable courses will be listed: <http://www.pjm.com/training/course-catalog/online-courses.aspx>

Market Settlement Information

The Quick Reference Guide to Market Settlements by Type of Business provide you with an overview of the charges/credit by business type: <http://www.pjm.com/~media/training/core-curriculum/ip-ms-301/ms-301-quick-reference-guide-to-markets-settlements-by-type-of-business.aspx>

The PJM Guide to Billing provides a high level summary of each charge and credit, with references to our manuals, tariff and operating agreement: <http://www.pjm.com/markets-and-operations/market-settlements/guides-forms/guide-to-billing.aspx>

Weekly Billing Calendar can be found at the following address: <http://www.pjm.com/~media/markets-ops/settlements/weekly-billing-calendar-june-2014-may-2015.aspx>

Information about Market Settlements Reporting System (MSRS) can be found at the following address: <http://www.pjm.com/markets-and-operations/etools/msrs.aspx>

Report details/calculations can be found at the following address:

Guides and Forms: <http://www.pjm.com/markets-and-operations/market-settlements/guides-forms.aspx>

MSRS Reports: <http://www.pjm.com/markets-and-operations/market-settlements/black-start.aspx>

When it comes time to settle your bill, you will want to take a look at the MSRS report page of our website: <http://www.pjm.com/markets-and-operations/market-settlements/msrs-reports.aspx> The description for each reports provides a summary of the report, report availability and the calculations for each report.

Here is the link to our manuals: <http://www.pjm.com/documents/manuals.aspx>

Our Accounting and Billing Manuals provide details about the charges and credits. The Settlements manuals are M-27, 28 and 29.

Stakeholder Information

One item I forgot to mention to you is the Stakeholder Process. I am not sure if you plan to attend the committee meetings. These meeting help shape the rules in PJM. Your company is a Voting member in PJM and is able to vote on items at the committee meetings. Your company will be announced as a new member at the MC meeting on 10/30/2014. You will be able to vote on items effective 11/20/2014. If you attend the MC, MRC or MIC votes are submitted via the voting application. The Voting application is part of the eSuites and the information for getting access and the application should be in the Welcome Packet that Megan sent.

Just in case, here is the link to our Voting Training g Presentation. This will give you the instruction for submitting a vote via the Voting Application: <http://www.pjm.com/~media/etools/committee-voting/committee-voting-application-training-slides.ashx>

I realize this is a lot of information. Please take your time to review.

Please feel free to contact me with any questions.

Welcome to PJM!

Aggressive Energy LLC has been approved for PJM membership in the Other Supplier sector and will be announced at the Members Committee ("MC") meeting to be held October 30, 2014. Original copies of your signed agreements will be mailed to the Members Committee representative selected by your organization, for your records.

To ensure your needs are met, Michelle Souder or Chrisie Franks will be your initial point of contact and will reach out to you to welcome you and talk about PJM. You can also contact our Customer Service Center at 866-400-8980 should you have any questions in the meantime.

We offer new members the opportunity to participate in a monthly open house session covering a PJM 101 general overview hosted by your client manager. These sessions are scheduled for the third Thursday of the month from 12:00 p.m. – 3:00 p.m., and lunch will be provided. Members may participate in an open discussion of the presentation material, and will have a Mezzanine tour of the Control Room floor, if available. If you wish to schedule a visit session, please contact Chrisie Franks, the visit coordinator. She can be reached at 610-666-4535 or christine.franks@pjm.com.

Feel free to visit the following page on our site for a complete list of PJM trainings:
<http://www.pjm.com/training.aspx>

Included in this email you will also find the **Stakeholder Process** document, which walks through PJM's stakeholder process at a very high level. Also attached is our **New Member Quick Guide**, which explains how to get started in PJM's stakeholder world – setting up accounts, education, attending meetings, joining rosters and distributions lists. Finally, you will find your complete **Welcome Kit** and [PJM.com](http://www.pjm.com) guide.

Thank you and welcome to PJM!

Re: **Receipt of Annual Electric Power and Natural Gas Supplier License Filing**
Dkt Nos. EE19040442L & GE19040441L

The New Jersey Board of Public Utilities ("Board") received a timely submission of the annual information update form for filing year 2025 on April 16, 2025 for Electric Power Supplier and Natural Gas Supplier Licenses, numbers ESL-0198 and GSL-0170 issued to Aggressive Energy, LLC. Pursuant to N.J.A.C. 14:4-5.6, these licenses shall not expire so long as a license renewal fee accompanied by an annual information update form is submitted to the Board within 30 days prior to the licensee's annual anniversary date of May 28th. These licenses remain active and in good standing with the Board. Nothing shall limit the authority of the Board to deny, suspend, or revoke a license or registration at any time, consistent with the provision of L. 1999, c.23 (N.J.S.A. 48:3-49 et seq.). N.J.A.C. 14:4-5.13(d)

This letter is not an endorsement of, nor is it intended for use in, the marketing promotions of the licensee. Licensees shall comply with all applicable law, including the Electric Discount and Energy Competition Act of 1999, N.J.S.A. 48:3-49 et seq., which prohibits the unauthorized change of a customer's energy provider and other fraudulent and illegal marketing activities.

If you have any questions, please contact the Division of Audits at (609) 913-6258.

Sincerely,

Alice Bator *AB*
Director, Division of Audits

Licensed Suppliers

The PUC issues licenses to competitive electric generation suppliers in Pennsylvania. Only licensed suppliers are authorized to provide electric service in Pennsylvania. Read on for a complete list of the suppliers currently licensed in the state.

Licensing Standards

PUC licensing standards include that the supplier is bonded or has provided other security approved by the Commission to ensure financial responsibility; that the supplier has met the PUC technical and financial responsibility guidelines; and that the supplier agrees to uphold consumer protection laws and reliability standards, along with supporting the consumer education requirements.

Notice to All Licensed Electric Suppliers

Effective Immediately: Any changes to the following list must be submitted in writing with an original signature (i.e., no faxes) to the Secretary of the Commission. Changes submitted by any other means will not be accepted or made.

Supplier Application & Resources

PENNSYLVANIA PUBLIC UTILITY COMMISSION

IN THE MATTER OF THE APPLICATION OF: A-2019-3014003

Authorizing Aggressive Energy, LLC the right to begin to offer, render, furnish or supply natural gas services as a supplier to large commercial (6,000 MCF or more annually), industrial, and governmental customers in the natural gas distribution company service territory of PECO Energy Company, within the Commonwealth of Pennsylvania.

EFFECTIVE DATE: February 6, 2020

The Pennsylvania Public Utility Commission hereby certifies that after an investigation and/or hearing, it has, by its report and order made and entered, found and determined that the granting of the application is necessary or proper for the service, accommodation, convenience and safety of the public and hereby issues, evidencing the Commission's approval, to the applicant this:

LICENSE FOR NATURAL GAS SUPPLIER

In Witness Whereof, The PENNSYLVANIA PUBLIC UTILITY COMMISSION has caused these presents to be signed and sealed, and duly attested by its Secretary at its office in the city of Harrisburg this 6th day of February, 2020.

Secretary

STATE OF ILLINOIS

ILLINOIS COMMERCE COMMISSION

Aggressive Energy LLC :
: :
Application for Certificate of Service : **17-0322**
Authority under Section 16-115 of the :
Public Utilities Act. :

AMENDATORY ORDER

By the Commission:

On August 15, 2017, the Illinois Commerce Commission (“Commerce”) granted Aggressive Energy LLC’s (“Applicant”) verified Application requesting a certificate of service authority to operate as an alternative retail electric supplier (“ARES”) in Illinois pursuant to Section 16-115 of the Public Utilities Act (“Act”), 220 ILCS 5/1-101 *et seq.*, and 83 Ill. Adm. Code 451 (“Part 451”). The Commission’s Order granted Applicant authority to provide service to all eligible residential and commercial retail customers, but Applicant seeks to serve only non-residential customers in Commonwealth Edison Company’s service territory.

The Order incorrectly included references to Subpart D of Part 451, which is inapplicable to Applicant’s requested certificate. Therefore, the fourth and fifth paragraphs in Section III.A. and the third paragraph of Section III.B. are deleted.

The Order also incorrectly identified Applicant’s service authority. The Commission concludes, therefore, that Applicant’s request for a certificate of service authority to operate as an ARES in Illinois should be amended and should grant the following authority:

CERTIFICATE OF SERVICE AUTHORITY

IT IS CERTIFIED that Aggressive Energy LLC is granted service authority to operate as an Alternative Retail Electric Supplier as follows:

SERVICES TO BE PROVIDED: The sale of electricity and power.

CUSTOMERS TO BE SERVED: All eligible non-residential retail customers.

GEOGRAPHIC REGION(S) SERVED: For the sale of electricity and power in the service area of Commonwealth Edison Company.

IT IS THEREFORE ORDERED by the Illinois Commerce Commission that Aggressive Energy LLC is hereby granted a Certificate of Service Authority as set forth in this Order.

IT IS THEREFORE ORDERED that the Order entered by the Commission on August 15, 2017 is amended by the above language as noted herein. In all other respects, the Order remains the same and in full force and effect.

IT IS FURTHER ORDERED that, subject to the provisions of Section 10-113 of the Public Utilities Act and 83 Ill. Adm. Code 200.880, this Order is final; it is not subject to the Administrative Review Law.

By Order of the Commission this 8th day of November, 2017.

Dan Messina
Aggressive Energy, LLC
78 Rapelye Street
Brooklyn, NY 11231

Dear Mr. Messina:

On October 10, 2017, Aggressive Energy, LLC ("Company") filed an Application for a License to Supply Electricity or Electric Generation Services in Maryland under COMAR 20.51. The Company proposes to provide electricity supplier services in Maryland for commercial and industrial customers as described in the application.

After considering this matter at the January 31, 2018 Administrative Meeting, the Commission granted the Company a license to supply electricity or electric generation services in Maryland (License Reference Number IR-3975). The license granted by the Commission under this Letter Order is limited solely to electricity supplier services for the customer classes and service territories applied for and recommended by Staff.

Finally, the Company is reminded that it is under a continuing obligation to notify the Commission within 30 days of any changes to the information upon which the Commission relied in granting this license. A copy of the supplemental or updated information is required to be filed concurrently with the Office of People's Counsel.

By Direction of the Commission,

A handwritten signature in blue ink, appearing to read "David J. Collins".

Re: Aggressive Energy LLC Licensing Application

To Whom It May Concern:

Shell Energy North America (US), L.P. ("Shell Energy") has entered into a supply and financing arrangement with AGGCO Holdings LLC, Aggressive Energy LLC, Energy Solutions Co. LLC, BRF Aggressive LLC, First Choice Energy LLC (collectively "Aggressive" or "Aggressive Energy") pursuant to which Shell Energy serves as Aggressive's primary supplier of power and gas.

The arrangement provides Aggressive Energy the opportunity to purchase gas and power either from Shell Energy or through transactions with other suppliers in the competitively priced long and short-term gas and power markets. The arrangement also provides Aggressive Energy with a revolving credit facility that Aggressive Energy may use to allow flexibility in repayment terms and to provide for certain working capital needs. As of September 29, 2025, Aggressive's line of credit with Shell Energy was determined by a borrowing base structure subject to a cap of \$40,000,000, and the outstanding balance owed to Shell Energy was \$19,200,000. Shell Energy's dealings with Aggressive Energy are subject to Aggressive Energy's continued satisfaction of certain conditions and covenants and requires Aggressive Energy to pay fees to Shell Energy in consideration of the arrangement.

We are providing this letter to Aggressive Energy with the understanding that Aggressive Energy may from time to time provide it to its customers and potential customers that may request information regarding the supply and financing arrangements available to Aggressive Energy. The above summary of our arrangement is general in nature and speaks only to the arrangement between Shell Energy and Aggressive Energy as it exists on the date hereof. Shell Energy makes no representations or warranties regarding Aggressive Energy or its business or financial condition, and this letter may not be relied upon as a form of guaranty or other performance assurance in respect of Aggressive Energy obligations. Shell Energy disclaims any duty to update this letter or inform any recipient of this letter of any amendment, extension or termination of our arrangement with Aggressive Energy or the existence of any defaults or the exercise of any remedies in connection therewith.

CONFIDENTIAL
