Section 12 - Customers

OnSite Partners, LLC

12. Customers: Applicant proposes No restrictions regarding the size of the end use customers (Describe in attachment).

OnSite Partners, LLC Overview

OnSite Partners, LLC has not operated in the District of Columbia as a broker, but operates nationally as a consultant where permitted. As the former Services business unit of AEP Energy, Inc. we held broker licenses in several jurisdictions throughout PJM, MISO and in Texas and provided energy supply management services to commercial and industrial customers since our inception in 2019 and until the completion of the sale of our business to Basalt Infrastructure Partners in September of 2024. We are currently in the process of obtaining broker licenses, or the equivalent license in all jurisdictions where required, but continue to operate as a consultant not charging any broker fees to our customers, but instead being compensated through various alternative fee structures such as a recurring consulting fee, or services fee which is inclusive of several other energy consulting services provided.

We work with several Commodity Gas Suppliers in the District of Columbia, but do not have any agreements specifically with natural gas distribution companies or utilities. Additionally, we will not assign our existing agreements with commodity gas suppliers active in the District of Columbia from AEP Energy, Inc. to OnSite Partners, LLC until we have obtained the proper licensing needed to resume our obligations under these agreements. Additionally, as we do not presently receive compensation in the form of broker fees payable to us by commodity suppliers through the customer's supply bill, we have no agreements to disclose with commodity suppliers.
