

Erica Weyer
DC Chapter of the Sierra Club

February 7, 2020

Ms. Brinda Westbrook,
Commission Secretary
Public Service Commission of the District of Columbia
1325 G Street, N.W. Suite 800
Washington, DC 20005

Re: Formal Case No. 1130, Power Path DC Order #20286

Dear Ms. Westbrook:

The DC Chapter of the Sierra Club respectfully requests appointment to the Pilot Projects Governance Board. The Sierra Club is the nation's oldest and largest environmental advocacy group. The DC Chapter is a grassroots organization with more than 3,000 dues-paying members and more than 10,000 supporters in DC. Members of our Chapter have been involved in numerous PSC cases, including the MEDSIS Working Group.

Modernizing DC's electric grid is a key component of meeting DC's climate commitments as laid out in the Clean Energy DC Omnibus Act of 2018, with which our organization was heavily involved in developing. It is critical that the pilot projects developed as part of MEDSIS create a technical and policy environment in which distributed energy resources can flourish. On the Board, the Sierra Club will provide a voice for the public health of DC's current and future residents and ensure that the pilots enable DC to meet its climate commitments.

Sincerely,

Erica Weyer
DC Chapter of the Sierra Club
