Q4 2020 Progress Notes: Contractor fully staffed with internal resources and subcontractors. Finished the year strong by completing all planned Inspections

*(Q2) New field added to "Manhole Contents" - Out of Scope. These are manholes that are owned by others or missing in the field that will be corrected in Pepco's GIS system. Advantage of new program is finding these missing holes and removing them from the inspection program and future years.

Note: Active Conditions are now reported through the Exelon Asset Suite 8 Software (Work tracking tool for Preventative and Corrective Maintenance). Contractor began work on backlog CM's August 2020.
