Washington, DC 20005

Re: Formal Case No. 1098

Dear Ms. Westbrook-Sedgwick:

Enclosed please find Potomac Electric Power Company's response to Paragraph 7 of Order No. 18168, issued by the Public Service Commission of the District of Columbia on April 20, 2016 in the referenced proceeding.

Please contact me if you have any further questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'DPJ' followed by a flourish.

Dennis P. Jamouneau

cc: All Parties of Record

POTOMAC ELECTRIC POWER COMPANY
DISTRICT OF COLUMBIA FORMAL CASE NO. 1098
RESPONSE TO COMMISSION DATA REQUEST 1 TO
COMMISSION ORDER NO.18168

QUESTION NO. 1

HOW DO SUPPLIERS CURRENTLY ACCESS THEIR CUSTOMER'S SMART METER DAY, USING EDI 867 IU TRANSACTIONS, IN THE DISTRICT?

RESPONSE:

Licensed and active third-party suppliers ("TPS") must be compliant with the EDI X12 standards in order to receive customer smart meter data in the District of Columbia. TPS's receive this data from Pepco via paperless exchange and Pepco automatically sends IU (interval usage) data at the time of billing based on the usage preference established by the TPS with Pepco for each interval-billed AMI account. The data can be either summary level (monthly total) data or hourly usage data depending on TPS preference, but if no preference is selected by the supplier, the supplier will receive hourly usage data.

COMMISSION ORDER NO.18168

QUESTION NO. 2

WHAT INFORMATION HAS PEPKO PROVIDED TO SUPPLIERS REGARDING DATA ACCESS IMPROVEMENTS RESULTING FROM THE DEPLOYMENT OF SOLUTION ONE?

RESPONSE:

Pepco has always provided customer data to Suppliers via EDI and continues to provide all customer data exchange via EDI. Pepco participates in monthly EDI working groups whereby Suppliers and Utilities discuss and agree to EDI format and data changes. The group is led by a third party consultant, Brandon Siegel, of Intelometry. With the deployment of AMI meters in DC, hourly data is widely available and provided as discussed in question 1.

COMMISSION ORDER NO.18168

QUESTION NO. 3

WHAT IS PEPCO'S PLAN FOR ACTIVATING THE SECOND TRANSMITTER (HAN RADIO) THAT IS PART OF THE SMART METERS INSTALLED IN THE DISTRICT AND IS DESIGNED TO COMMUNICATE WITH IN-HOME DEVICES ("IHD")?

RESPONSE:

Pepco has activated the HAN radio in specific meters in order to test end-point device functional performance. Pepco continues to evaluate potential endpoint devices for customer benefits, but has not made a decision on the wide scale deployment of any devices.
