

**PUBLIC SERVICE COMMISSION OF THE DISTRICT OF COLUMBIA  
1325 G STREET, N.W., SUITE 800  
WASHINGTON, D.C. 20005**

**January 8, 2024**

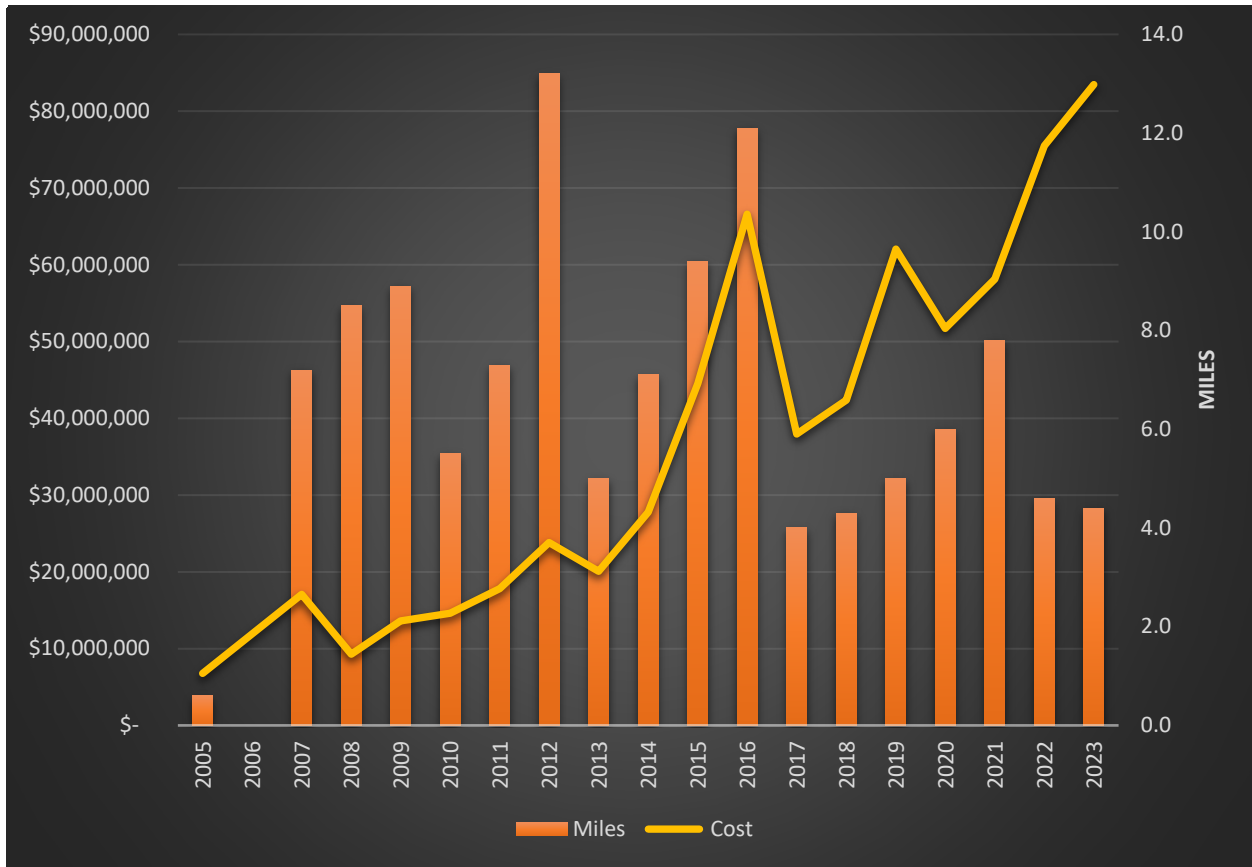

**FORMAL CASE NO. 1154, IN THE MATTER OF WASHINGTON GAS LIGHT  
COMPANY'S APPLICATION FOR APPROVAL OF PROJECTPIPES 2 PLAN,**

**NOTICE OF COMMISSIONER BEVERLY**

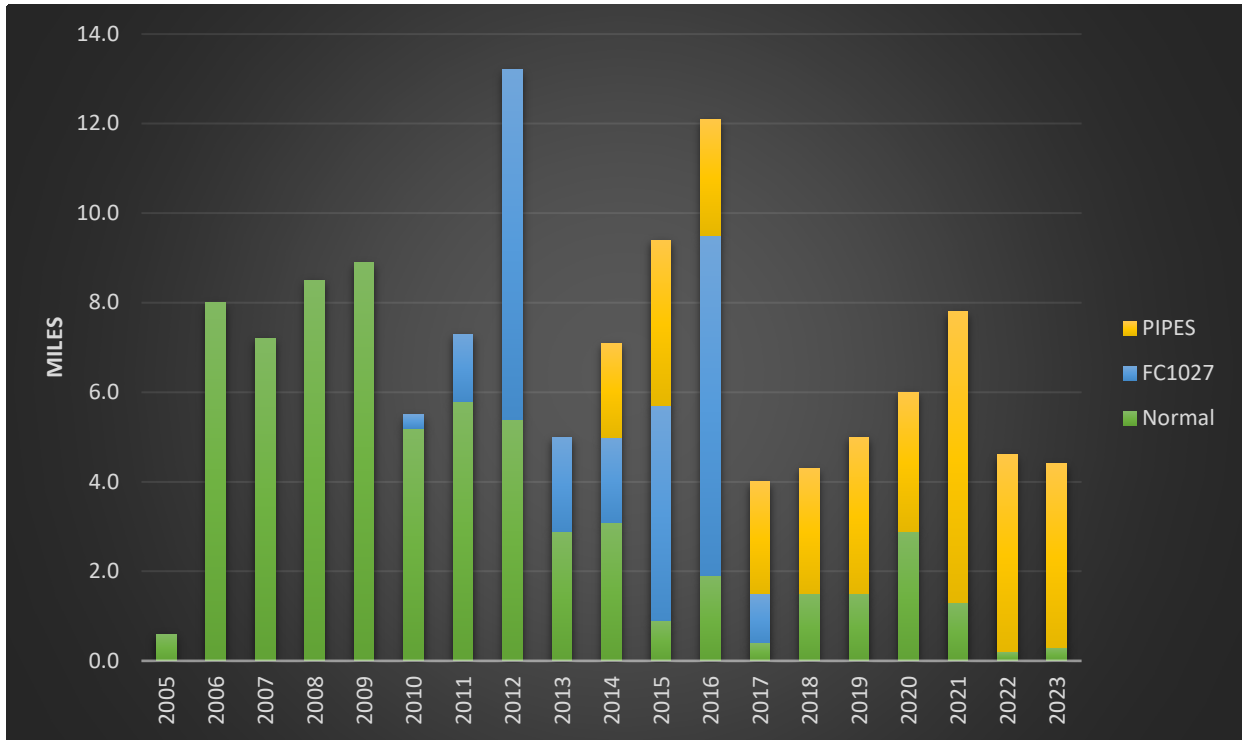

Washington Gas Light Company (“WGL”) recently filed a response to Commission Order No. 21940 requesting information regarding PROJECT*pipes*. My office has used that information to prepare charts (Attachment A) which will help us all understand the cost/benefit of continuing this program. The issuance of these charts is done solely through my office, pursuant to my independent authority under D.C. Code §34-802, and is not intended to represent the opinion of the full Commission. You are not required to do anything in response to this issuance, but I invite all parties (which includes WGL) to let me know whether or not you think the charts properly reflect the data or, alternatively, provide me with charts of your own. In developing these charts, my office has assumed that WGL provided the requested information in Order No. 21940, that included the miles of pipe replaced and the total cost. If the service line data, which was provided as the total amount of service lines replaced, was included in the total cost, then it would be helpful if WGL would convert that data into miles to allow for these charts to be updated.

# ATTACHMENT A

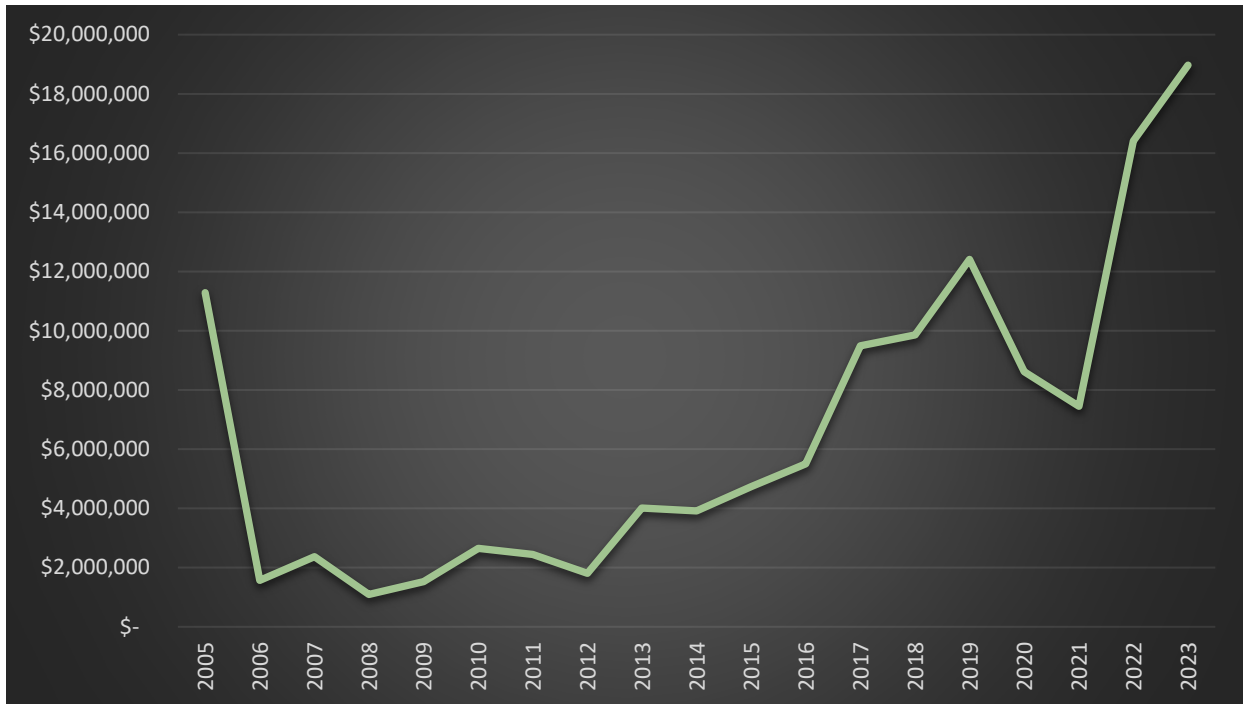

### 1. Total miles and cost of pipe replaced, by year

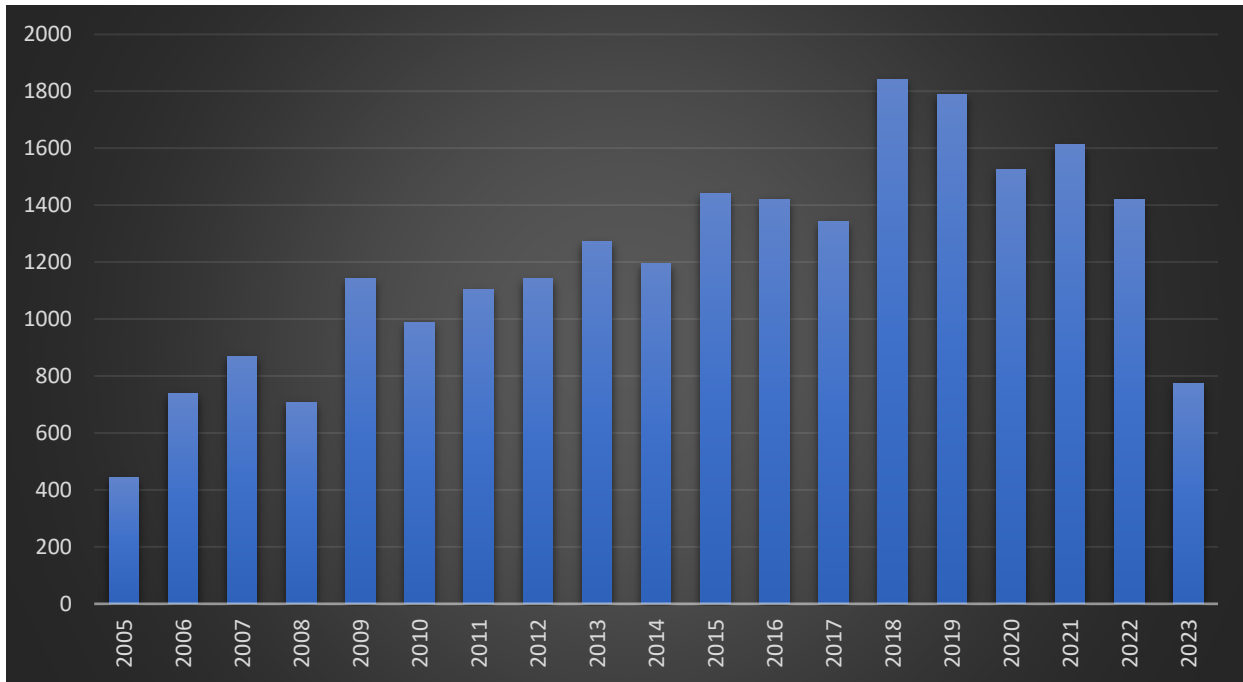

2. Miles of pipes replaced, by program (normal operations, *Formal Case No. 1027*, and accelerated replacement) and year

3. Cost per mile of pipe replacement, by year

#### 4. Total leaks discovered, by year

#### 5. Leaks discovered by grade and year
