Electronic Filing

Brinda Westbrook-Sedgewick
Commission Secretary
Public Service Commission
of the District of Columbia
1325 "G" Street, NW, 8th floor
Washington, DC 20005

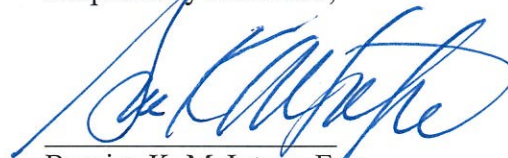

Re: FC 1142 – AltaGas Ltd.- Commitment No. 5 - Notice of Compliance with filing
of the Plan for the 10 MW project.

Dear Ms. Westbrook-Sedgewick:

Enclosed for filing please find AltaGas Ltd.'s Plan for the 10 MW project in compliance with
the first part of Commitment No. 5 in the captioned docket.

Please call the undersigned if there are questions regarding this filing.

Respectfully submitted,

Bernice K. McIntyre, Esq.
Regulatory Strategy Director
WGL Non-Utility Operations
WGL Energy Services, Inc.
WGL Energy Systems, Inc.
8614 Westwood Center Drive, Suite 1200
Vienna, VA 22182
(703) 287-9447

Cc: Peter Ledig, Divisional Vice President, Power, AltaGas Ltd.

Enclosure

Commitment #5 DC:

*District of Columbia - AltaGas shall, within five (5) years after Merger Close, develop or cause to be developed 10MW of either electric grid energy storage or Tier one renewable resources in Washington, D.C. If AltaGas or one of its affiliates develops the project, the construction of the project shall be competitively bid. AltaGas may retain the renewable energy certificates ("RECs") and tax attributes for the Tier one resource. AltaGas will use reasonable best efforts to ensure at least twenty percent of the operational jobs for the 10MW are sourced from the local workforce. The costs of this project shall not be recovered through Washington Gas's utility rates. AltaGas shall use best efforts to target this project in capacity constrained electric distribution areas. **The Applicants shall file its plan for the 10MW project for approval by the Commission within 180 days of Merger Close and an annual progress report following approval of this plan.***

To develop, or cause to be developed, the specified electric grid energy storage or Tier one renewable resources, several stages of opportunity development will occur. The timing of these activities will vary over the course of the five-year commitment period due to the number of installations, external market conditions, and other factors that influence the viability, feasibility, and/or other criteria of the projects. More specific information on milestones and timeframes can be provided during the annual progress reports.

Phases and activities planned to meet this commitment:

1. Identify Potential Project(s)

- a. Identify potential sites
- b. Identify potential off-take/customers
- c. Assess electrical interconnection feasibility
- d. Assess engineering feasibility
- e. Assess ability to acquire or lease land, obtain necessary permits, etc.

2. Finalize Project(s), based on:

- a. Proximity to capacity constrained electric distribution areas
- b. Financial viability
- c. Engineering viability
- d. Production viability
- e. Demand/off-take/customer viability

3. Design and Permit Project(s)

4. Engineer, Procure Materials for, and Construct Project(s)

5. Interconnect and Commission Project(s)

6. Perform Asset Management/and Operations and Maintenance activities

- a. Identify and execute efforts to ensure at least twenty percent of the operational jobs for the 10MW are sourced from the local workforce
