The PHI Diverse Business Empowerment Monthly Management Update is an internal monthly metrics report that reflects enterprise wide diverse spending. This update monitors the monthly year-to-date progress in the utilization of diverse suppliers in supply managed categories of spending. The reports are also distributed monthly, companywide to provide an overview of year over year comparison for Pepco Holdings and the target to actual goal performance.

Key Meetings

Category Managers and Supplier Diversity

Category Managers and Pepco DBE staff worked together to maximize competitive opportunities for diverse suppliers and increase diverse spend to achieve internal and external goals. In addition to weekly Supply meetings to review upcoming sourcing

opportunities, meetings with various Pepco department leads were held during the year to discuss potential opportunities, challenges and progress, and develop ideas to expand opportunities to diverse suppliers.

Pepco DBE leadership held its annual Listening Tour in December 2018 with Pepco executive leaders. The 2018 meeting focused on strategy for enhancing diverse supplier inclusion for 2019, as well as challenges in 2018. In 2018, Pepco prime contractors subcontracted \$42 million dollars to diverse subcontractors.

The top three subcontracted areas were:

- Transmission and Substation Construction
- Staffing Services
- Distribution Construction

Pepco ensures that major prime suppliers understand our commitment to inclusion and values starting with our terms and conditions requiring subcontract opportunities. The absence of a subcontracting agreement is the exception rather than the rule.

When there is an opportunity for subcontracting, prime contractors are encouraged to subcontract with local and diverse suppliers. Prime contractors are asked to provide the

level of diverse subcontracting they anticipate, which is part of the bid evaluation process. Primes also sought assistance in identifying potential subcontractors.

The Tier 2 reports were submitted monthly by prime contractors during 2018 and verified by the Business Operations and Technical Services team to ensure commitments were met and to document performance.

Tier 2 subcontracts included environmental consulting, fuel management, distribution equipment, traffic control services, computer hardware and software consulting, travel and lodging services, safety systems and equipment, underground construction, electrical and electro-mechanical equipment, facility management services, line hardware, and electrical equipment.

SRB Communications' work on Pepco's Multicultural Marketing contract kicked off in 2018 with an advertorial placement in The Washington Informer's Homeownership Supplement, followed by placements in El Tiempo and The Washington Informer's Back to School editions. SRB Communications also began the in the summer months by placing print and digital ads for Pepco's Peak Energy Savings Days in ethnic media across the PHI footprint. Near the end of 2018 SRB was involved in Pepco's annual ZooLights sponsorship, placing animated digital ads throughout the metropolitan Washington, D.C. region, to promote the Smithsonian National Zoo's famous tradition of lights, music and, of course, animals. During ZooLights, powered by Pepco, more than 500,000 environmentally friendly LED lights transformed the zoo into a winter wonderland after dark. Going into 2019, the company will help Pepco's customers stay prepared in the event of storms or unexpected outages. The SRB team will execute strategy, creative and media buys and placements.
