

Dear DCPSC:

Please accept this open records request for copies, electronic if possible, of the most recent contract awarded to Veterans Services Corporation or Vital Services Contractors, as well as the RFP associated with that contract, as well as the company's response/proposal associated with that RFP.

I make this request in the course of newsgathering and believe the information requested will further the public's understanding of the workings of their government and therefore respectfully request any cost waivers that may be available. I also request any expedition that may be available, as this information is of immediate and legitimate interest to the general public.

Thanks,

Steve Thompson
